A dedicated and persistent web developer, with a background in Criminal Justice and Sociology. An education and experience from UC San Diego Extension Coding Bootcamp with new knowledge in JavaScript, jQuery, CSS, and many other coding languages, striving towards creating innovative and efficient projects. Previous experience as a crime analyst intern for the San Diego Unified School District Police Department has created familiarity with a professional work environment of collaboration and critical thinking. A recent group project, made up of three team members, utilizes HTML, CSS, JavaScript and other coding frameworks to execute an app that uses API's from Wikipedia and OMDb to retrieve entertainment information based on user input. Aspiring to expand experience and knowledge in coding to further engage in the field, and apply strengths in critical thinking and data analysis.
